

CREATE YOUR OWN WATCH

Press Release : March 3th 2020 - Budapest (HU) and Paris (FR)

GRIGRI watches, a new micro-brand of tailor-made watches with a daring concept!

Its promise: to offer everyone the opportunity to wear a unique timepiece on their wrist.

Founded by, **Clémence Hellebronth**, a young French woman living in Budapest, in the heart of Europe, **GRIGRI watches** was born from the idea that personalization becomes the new Grail of Fashion and will become one of the industry standards.

GRIGRI watches fulfills this expectation in the watchmaking field with its personalized and limited edition watches.

Leading watches Kft, the owner of the **GRIGRI watches brand**, has developed an innovative manufacturing method that allows them to personalize even the smallest details of the watches they make for their customers. The most passionate can go so far as to create the dial of their watch themselves using a vector graphic drawing tool. Those who have a real passion for watchmaking can even assemble their watch themselves thanks to the kits offered on the online store. The imagination is the only limit, creating the watch of your dreams is now possible.

GRIGRI watches also offers a collection of watches developed by our artistic teams, the main elements of which (movement, bracelet, engraving and even hands) remain fully customizable and can serve as a working basis for the development of an equally exclusive watch.

We have worked together with our suppliers to offer customers excellent value for money to make these jewels accessible to as many people as possible. **We are offering a Quartz version at 249 euros and an automatic mechanical version at 399 euros**, VAT and transport included.

And to top it off: our watches are all handcrafted in Europe by talented craftsmen. We assure their deliveries in the whole world without additional costs and because we are sure of their quality: we guarantee them 2 years.

Other questions? Do not hesitate to join us on **grigri-watches.com** and our teams will be happy to answer them.
